

To whom it may concern

I listen to K-Love on 88.1 FM in Omaha Nebraska it plays wonderful music and keeps updated on local religious events. I think it would take away much needed and family oriented programming here. I think Klove is essential to the public it is a great station to listen to and gives so much peace and faith to me. It is so positive an encouraging which is much different than many other stations that play music which is not suitable for younger people.
